

Since inception, more than 10,000 insureds have executed their agreements using EPF Plus®

What is it?

EPF Plus is a web-based application that eliminates the need for agents to obtain a pen-on-paper signature from insureds seeking premium financing—saving insurance agents the time and stress of waiting for insured customers to sign and return forms.

What's more, the down payment and subsequent monthly payments can be set up and paid through Electronic Funds Transfer (EFT) — and you control the insured's options for these payments. In turn, AFCO funds your agency the total premium via ACH. It's convenient for your clients and keeps your business moving.
