

When time is money, we help you save both.

AFCO's trademarked **Policy Preservation Process**[®] collection program helps preserve insured relationships and strengthens your agency's receivables management.

How our Policy Preservation Process works:

- Maintains contact with Insured throughout the billing cycle by mail and phone to facilitate prompt payment and avoid cancellation
- Reduces agency E&O exposure
- Preserves insured coverage and agency revenue
- Reduces agency collection and servicing costs
- Enables agents to concentrate on sales and insured relationships instead of collecting premiums
