

New Enhancement to EPF Plus® makes ePayments simpler, faster and easier than ever!

- Now you can REQUIRE your insured ePay the Down Payment in order to eSign their PFA!

Here's how it works: On Step 2 (shown below) in EPF Plus, you will see the **New Feature**. Leave the boxes checked. Once your insured completes the EPF Plus process, AFCO will fund the total premium!

Please select the **ePayment options** for your insured or to skip click the Continue button below:

Offer ePayment For Down Payment

New! ePayment for Down Payment is Required (**Recommended: AFCO will collect the down payment on your behalf**)

Uncheck this box if you already collected the down payment or wish to leave this optional for your insured)

Offer ePayment for Scheduled Installments

- Our newest EPF Plus feature, if selected, eliminates down payment follow-up by your agency. With this new feature, the insured **is required** to make their down payment in order to complete the EPF Plus process.
- AFCO will collect the down payment on your behalf and fund the total premium – and it's still all paperless!
- Our new EPF Plus option helps your Accounting Department by taking away guesswork and inconsistencies related to down payments.
- If your agency prefers to leave ePayment of the down payment optional, simply uncheck the box above as indicated.
